

STRONGWORK ARCHITECTURE

CAPABILITIES STATEMENT

Strongwork Architecture, LLC is a growing small architecture firm based in Portland, Oregon, that is diverse, responsive, and agile. Our staff can quickly shift between project types and design team roles.

We can partner with other design consultants to offer a wide range of expertise.

Over a decade experience in public projects shows that we deliver a quality product on time and on budget with excellent customer service.

We design with sustainability in mind as we address the needs of the setting, community, and plant managers and operators.

OUR CAPACITY

From small pump stations to 180mgd water filtration facilities, ground-up administration buildings to roof retrofits, we have worked on projects with a variety of scale and scope across the PUBLIC INFRASTRUCTURE INDUSTRY. In our 12 years' experience in this sector, we have developed a knack for facilitating cost-effective buildings that are appropriate for process, pleasing for people, and functional for both.
